Projects

Maa Bhawani Steel Works

A E-commerce website for business to showcase and sell their products to customers worldwide. The website featured a responsive design and essential e-commerce functionalities such as product browsing, cart management, secure payment gateways, and order tracking.

Html, CSS, Bootstrap, JavaScript React JS, Node JS, MySQL

QuoteHub

I proudly present "QuoteHub," a dynamic and interactive quotes generation website. QuoteHub offers users an inspiring and uplifting experience by providing quotes from various categories. With a user-friendly interface, efficient search functionality, and well-organized categorization, QuoteHub aims to inspire and uplift users through meaningful quotes.

HTML, CSS, JS, REACT JS, RAPID API

TO DO LIST

I've created a To-Do List website with a complete tech stack that includes HTML, CSS, and React.js for the front-end, and Node.js with Supabase for the back-end. Users can sign in, manage tasks, and experience real-time data synchronization between the front-end and back-end for an efficient and interactive task management system.

HTML, CSS, REACTJS, NODEJS, SUPABASE

CineMatrix

Cinematrix is a dynamic and interactive web application for searching and exploring movies and TV shows. The application provides users with the ability to search for upcoming movies and TV shows, as well as browse through various genres of movies.

HTML, CSS, JS, REACT JS, RAPID API

Shalluproducts

Shalluproducts is a Bussiness Portfolio Website that gives the information about the business including Introduction and Further processes of manufacturing products

Html, CSS, Bootstrap

Gym Exercise Website

Fully Responsive Website having animated exercise of different parts of body followed by similar muscle exercise and links of similar exercise on Youtube

Html, CSS, Bootstrap, React JS, Rapid API

Apple iPhone-14 Clone-Website

I designed and built an iPhone 14 clone website using HTML and CSS, showcasing my proficiency in web and attention to detail. The project replicates the sleek design of the iPhone 14, providing a responsive and visually appealing user interface.

HTML, CSS

WheelDrift Tires

A portfolio website for a Canadian client, that expanded my proficiency in modifying pre-existing HTML, CSS, and Bootstrap templates. This experience sharpened my abilities in optimizing the site's design and functionality to align with the client's business goals. My objective was to elevate their online presence, highlighting key business information for maximum impact.

HTML, CSS, REACT JS

Certificates

Full Stack Development(React, Node and MySQL)
